

Capo Pyramide

The Capo pyramid is mainly installed on standing reinforcement. Installation is possible on reinforcement \varnothing 3-10 mm. To prevent twisting, the Capo pyramid is mounted on a reinforcement crossing point. The spring steel clamp \varnothing 2 mm clamps the Capo optimally to the reinforcing steel. Quick installation is guaranteed. The pyramid shape ensures a punctiform contact surface and enables a very high-quality exposed concrete quality. The concrete can also be supplied in other colors on request.
