K-TEC-3s© concrete screw

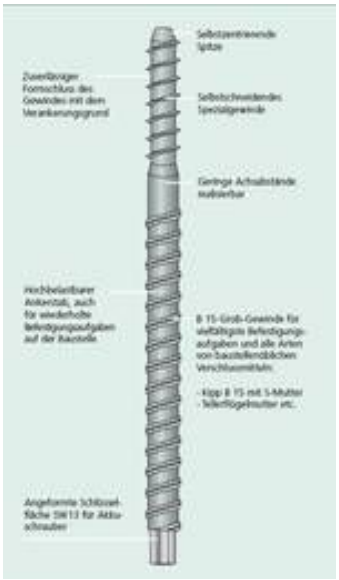

Kipp B 15 rund
mit S-Mutter, verzinkt

Kipp B 15 rund mit
Flügelmutter, verzinkt

The BETOMAX® K-TEC-3s© can be reused several times and combines the benefits of a coarse thread for temporary machine fastening with those of a self-tapping concrete screw.

Numerous applications
Suitable for all temporary fastening requirements for low to medium loads, e.g. for fastening machines such as core drilling and concrete finishing machines etc.
Both: Rugged B15 formwork tie thread
Facilitates the use of all types of screwed fastening: Kipp B15 with hex nut, waler wing nut or similar
And: High-strength, self-tapping special thread
For reliable, positive anchoring in the concrete
Easy procedure
Supremely simple system with minimal number of components
Enormous time saving
Drilled hole does not need cleaning; no additional work procedures
For installing close to edge and to each other
No plugs, no expansion
Resists high loads
Thanks to perfect positive fit in the concrete
Minimal tooling
Cordless screw driver recommended
Very simple inspection
Check the hole diameter (14 mm) and depth, and ensure that the bolt is tight
Reusable
Depending on surface conditions, up to 20 stress actions possible. Simple control due to checking gauge (has to be ordered separately)
